## The holiday season is fast approaching along with CAFÉ CULTURE CHRISTMAS REWARDS

Designed by Rob Slewe, the Bloom Pot is made of polypropylene and is illuminated by two energy saving globes. They are certified with Australian approval and can be plugged in to any internal or external power outlet. Perfect for pot plants, use as an ice bucket or simply to light the way, Bloom is perfect for any exterior or interior space.

We have a large stock of 660mm diameter x 600mm High white pots, which can be transformed by using coloured globes available in red, green, blue and various shades of white.

Place your orders now to receive these great deals:

\$10k order = 1 free Bloom pot

\$15k order = 2 free Bloom pots

\$25k order = 3 free Bloom pots

Based on orders received (deposit paid) from now until 23rd December 2008.

Bloom Pot

## Stock Take & End of Line Sale!

Visit the SALE section on the Cafe Culture website to view images, stock numbers and hugely discounted prices. [www.cafeculture.com.au](http://www.cafeculture.com.au)

### RECENT PROJECTS:

Mao Mao, Brisbane by Dennis Arnold of DA2 Design and Architecture.

Mao Mao is decked out with Cafe Culture Alu Kool chairs, constructed of brushed aluminium, welded into one solid form. Alu Kool are light weight, very easy to maintain and look great in many different applications. The Café Culture tables are made from feature grade Tasmanian Oak and lacquered steel legs.
